

PREPARING FOR YOUR NEXT PROJECT

STEP 1: INSPIRATION

Gaining inspiration from other home improvement projects is a great first step. Use websites, magazines, TV shows or any other inspiring pieces to narrow down your style, color palette, aesthetics, and layout.

STEP 2: CREATE A BUDGET

Decide what you are willing to invest in your project and give yourself a range. As you receive product quotes, you can work within or outside that range, determining the must haves vs. the niceties. Also, be sure to budget for the unexpected, like repairs or replacements.

STEP 3: MEASURE

To start a basic design, take pictures, draw a rough sketch of the current layout and jot down some simple measurements. Your hired contractor will visit your home to take precise measurements and discuss layout options.

STEP 4: MEET OUR TEAM

We will introduce you to the Design Works showroom & fabrication team to select your cabinetry, tile, flooring, countertops and window décor.

STEP 5: PURCHASING

Design Works is the exclusive local partner to some of the most coveted tile, stone & cabinetry brands on the market today. Once you've selected your perfect products, our team sources and purchases the materials.

STEP 6: IMPLEMENTATION

For the next few weeks (or possibly months depending on the size of your project), work will be ongoing. Having a designer, contractor or project manager there every step of the way will help ensure accuracy, quality, and timely delivery.
